

The SPi Group Inc. (SPi) provides a wide range of IT consulting services including:

- Custom software development
- Integration services
- Business analysis and system design
- Application and database performance analysis and tuning

SPi also provides the following energy market specific services:

- Market certification and testing
- Standards development and market design
- Working group representation
- Smart metering data management and presentment

Our consulting and development expertise is derived from being the leading developer and operator of EBT business to business services in the Ontario energy market. SPi has also led the market in developing and operating billing and settlement services for retail market participants in Ontario, including some US-based deployments. Our solutions are designed to meet the complex needs of today's constantly evolving markets, and through this evolution, SPi has acquired a unique blend of business and technical knowledge that can be placed at your disposal.

The Value Proposition

SPi's knowledge and expertise is not limited to the utility and energy industries – our technology specialists have backgrounds in a variety of sectors, including financial services, supply chain, publishing and telecommunications, and we can bring this expertise to bear when providing custom development services to these industries.

Service Benefits

- Reduces development, integration and deployment timelines, risks and costs.
- Validates project estimates and approach.
- Leverages a highly skilled workforce to your benefit.
- Leverages market specific knowledge and experience.

About SPi

The SPi Group Inc. is a Toronto-based provider of product and services primarily to the utility and energy industry. SPi's technology portfolio includes secure, reliable and auditable data transport solutions, and a variety of billing and settlement solutions, based on portable, open standards. SPi's team of highly skilled IT and energy industry professionals developed these technologies that operate mission-critical business processes for over 70 public and private sector clients.

About ERTH Corporation

ERTH Corporation is a dynamic family of energy companies with a strategic vision to grow and invest in parallel businesses that collectively serve North America's energy and utility industries. The group's electricity distribution, services, consulting and software companies service over 180,000 customers in Canada and the United States.
