## Project Management Services and Support

The SPi Group Inc. (SPi) offers a wide range of project management and support services. SPi's team of professionals are highly experienced in the areas of:

- Project management
- Business analysis
- Development
- Quality assurance

## The Value Proposition

SPi's expertise in developing specialized applications in the energy sector is unparalleled. SPi's development expertise spans the following:

- C, C++, Java and J2EE using JBoss, Oracle and many open source tools and technologies (Torque, Hibernate, JBPM etc.)
- Standard development tools (CVS, Bugzilla, Jira, CruiseControl etc.) used to support development and QA processes
- XML experts: SPi's main products and services are all based on XML transaction sets
- EDI
- Deployment platforms, such as Red Hat Linux and Windows

In addition, SPi is a leader in the provision of large scale data management services, and has a *Personal Information Protection and Electronic Documents Act* (PIPEDA)-trained privacy officer.

SPi's project management and support services are available à la carte, or we can provide a complete team of resources to undertake a given task or project.

## About SPi

The SPi Group Inc. is a Toronto-based provider of products and services primarily to the utility and energy industry. SPi's technology portfolio includes secure, reliable and auditable data transport solutions, and a variety of billing and settlement solutions, based on portable, open standards. SPi's team of highly skilled IT and energy industry professionals developed these technologies that operate mission-critical business processes for over 70 public and private sector clients.
